SESONA PANCA

DATA ANALYTICS | AI PROMPT ENGINEERING | ICT

72 Leslie Street, Brackenfell, Cape Town, 7560 | 068 420 8883 | pancasesona222@gmail.com

PROFILE

ICT graduate with a Diploma in Application Development, currently on a graduate programme in Data Analytics. I combine a software development foundation (Java, Python, SQL, JavaScript, React) with growing skills in data analysis and AI prompt engineering, backed by Google and Coursera certifications. I enjoy turning data and technology into practical solutions that improve business operations, and I learn quickly, communicate clearly and work well in teams.

I am looking to apply my technical and analytical skills in a professional environment while continuing to grow into a capable, trusted data and IT professional.

EXPERIENCE

Graduate Programme: Data Analytics | September 2026 – Present

- Completing a structured graduate programme focused on data analytics, professional development and applied AI.
- Developing skills in data analysis, AI prompt engineering and professional workplace practice.
- Building practical projects alongside the programme, including AI-assisted web applications.

EDUCATION

Cape Peninsula University of Technology (CPUT)
Diploma in ICT: Application Development (Completed)

Cowan High School
National Senior Certificate, 2017 – 2021

CERTIFICATIONS

- **Google AI Essentials** (Coursera)
- **Artificial Intelligence (AI) Bootcamp** (Coursera)
- **Professional Development** (Coursera)

PROJECTS

Creative Asset Orchestrator | AI-assisted web application (Lovable)

- Designed and built a web application using AI-assisted development and prompt engineering.
- Live preview: https://preview--creative-asset-orchestrator.lovable.app/

SKILLS

Data Analytics: Data analysis and interpretation, data cleaning and preparation, reporting and data visualisation, Excel, SQL

AI & Prompt Engineering: Prompt engineering, generative AI tools, AI-assisted development, AI for productivity

Software Development: Java, Python, JavaScript, React, HTML, CSS, SQL, software testing and debugging

Databases & Systems: MySQL, MongoDB, data management and documentation, system analysis, business process improvement, information security awareness

Professional: Problem-solving, analytical thinking, teamwork, communication, attention to detail, time management, stakeholder communication, record keeping

Tools: Microsoft Office Suite (Word, Excel, PowerPoint, Outlook)

HONOURS & ACHIEVEMENTS

- Strong academic record in ICT and Information Systems modules.
- Recognised for leadership and collaboration during university projects.
- Consistently praised for initiative, reliability and problem-solving.
